

# START YOUR PENETRATION TESTING CAREER

## ENROLL IN NETSPI UNIVERSITY

Getting started in cybersecurity? Looking for a career change? NetSPI University (NetSPI U) is a full-time, paid training program that focuses on penetration testing. Start your cybersecurity career with NetSPI, the leader in enterprise pentesting and attack surface management.

During the six-month training program, you will gain a baseline skill set to execute web application and external network pentests – setting a foundation for growth in the penetration testing industry.

NetSPI U features classroom-based learning, hands-on labs, and opportunities to shadow/mirror some of the most brilliant minds in cybersecurity. You will also have the ability to contribute to new and innovative tools, techniques, and methodologies.

### NetSPI U Benefits:

- Flexible time off
- Competitive pay
- Medical, dental, vision, and disability insurance
- HSA match
- 401k match
- Office perks (paid parking, networking opportunities, etc.)
- Industry-high employee retention rate of 92%
